FOUNDED 2017

Executive Identity: The Philosophy of Transformation

Business software must cover complex needs without becoming complicated. Metamorphosis Ltd. does not merely deploy software — we architect digital transformations from the ground up.

As the premier Odoo Silver Partner in Bangladesh, we hold the highest number of customer references in the region — a testament to our relentless pursuit of operational excellence.

Our "**Business Acumen First**" approach recognizes that ERP is fundamentally about deep business understanding, rigorous process mapping, and perceiving the big picture. We break down multi- dependent organizational complexities into streamlined, integrated solutions — replacing manual data silos with **a unified, real-time digital ecosystem** that drives profitability and scale.

Quick Facts

At a glance — the credentials, reach, and capabilities that define Metamorphosis Ltd.

Founded

January 2017 — headquartered in Mirpur DOHS
Dhaka 1216, Bangladesh

Partner Status

1st Odoo Partner in Bangladesh

Global Reach

Bangladesh · New Zealand · Australia · Saudi Arabia ·
Qatar · South Sudan

Core Expertise

Odoo ERP Implementation, Native Mobile App
Development, Custom Web Solutions

Project Portfolio

60+ Custom Developed Apps and 49+ Official Odoo
Customer References

Headquarters

Apt 1B, House 860-861, Avenue 3, Road 12, Mirpur DOHS
Dhaka 1216, Bangladesh

The Leadership Powerhouse

Spearheaded by seasoned engineers and business strategists, bringing decades of corporate and telecommunications-grade experience to the ERP sector.

Mohammad Rukunuzzaman

CHIEF EXECUTIVE OFFICER

B.Sc. EEE (Telecom) — BUET. **Odoo Certified ERP Consultant**

16+ years experience, former Head of Core in Network Operations at Banglalink. Expertise in Techno-Financial Analysis, Accounting & Finance, and Technical Consultancy.

Sadiq M. Alam

COO & MANAGING DIRECTOR

B.Sc. ME — BUET · M.Sc. NUS (Research Scholar). UCLA Fellowship, Odoo ERP Consultant. **Odoo Certified ERP Consultant**

20+ years IT experience, serial tech entrepreneur, information & solutions architecture. Founded startups across Australia, UK, and USA.

Istiaque Al Mahmud

PARTNER & DIRECTOR OF MARKETING

B.Sc. EEE — IUT. MBA Finance & Operations — NSU. **Odoo Certified ERP Consultant**

12+ years corporate experience (Banglalink, Grameenphone, Sheba XYZ). Master of Business Process Mapping, Service Delivery, and Operations Management.

The Methodology: The 'Metamorphosis Path'

We do not believe in off-the-shelf deployments. Our proven methodology ensures that the software bends to your business — not the other way around.

01

Free Consultation & Needs Assessment

Deep dive into operational bottlenecks, strategic goals, and current software ecosystem.

03

Business Mapping & Analysis

Microscopic analysis of workflows — mapping complex physical processes directly into Odoo's digital architecture.

05

Implementation & Data Migration

Secure migration from legacy systems (v8/v10 to v18).
Staging environment for rigorous User Acceptance Testing (UAT).

02

Global Estimate & Resource Planning

Transparent, detailed estimate of computing power, licensing, and implementation costs.

04

Estimate, Timeline & Customization

Rigid timelines. Precise Python/XML customizations, tailored modules, and API integrations (Pathao/Paperfly, SLCommerz/bKash).

06

Go-Live & Hypercare

Comprehensive user training, role-based access, proactive maintenance, server monitoring, and ongoing support.

The Odoo Technical Edge

Absolute technical mastery over the Odoo ecosystem — spanning versions 16, 17 and the **AI-driven Odoo 18, 19 Enterprise**.

Infrastructure & Architecture

Built on Python, JavaScript, XML, and PostgreSQL. We engineer High Availability (HA) environments for mission-critical operations — including Nginx/HAProxy load balancing, Gunicorn multi-worker architecture, and Patroni database replication for automatic failover.

- Disaster Recovery (DR) with automated backups & offsite storage
- Strict RPO/RTO adherence
- Deployments on Odoo.sh, On-Premise, AWS, GCP, and Azure
- SOC 2 compliance optimization

Custom Development & Localization

Over 60 custom-developed Odoo apps published on the official Odoo Store. Deep localization ensuring compliance with Bangladesh's National Board of Revenue (NBR), including complex VAT and AIT rules.

- AES-256 Data at Rest encryption
- Robust Data in Transit security protocols
- Sophisticated DDoS mitigation frameworks
- Full API localization for regional payment & logistics providers

Lean & Limitless: Cost, Performance & ERP Architecture

We engineer ERP environments that deliver maximum performance without the bloat. Through our Lean Implementation methodology, we eradicate technical debt and optimize cloud resources — ensuring your Odoo architecture scales effortlessly alongside your business.

Odoo Architecture Mastery

Highly customized, modular Odoo ecosystems that fit exact workflow requirements without compromising system stability.

Lean Implementation

Focused deployment strategy avoiding unnecessary customizations — keeping rollouts swift and costs controlled.

Technical Debt Reduction

Refactoring legacy systems and streamlining codebases to drastically improve system speed and maintainability.

Server & Resource Optimization

Fine-tuning database queries and server configurations for lightning-fast load times at the lowest possible operational cost.

Partners & Technology Stack

A robust digital transformation requires a world-class foundation. Metamorphosis Ltd. partners with industry leaders and leverages a bleeding-edge technology stack to build scalable, secure, and resilient enterprise architectures.

Strategic Partners

Odoo

Premium integration and core enterprise architecture partnership across the full Odoo product suite.

Fred Hyde Foundation

A strategic alliance demonstrating our capability to deliver highly impactful, scalable enterprise deployments.

Core Technology Stack

Enterprise ERP

Odoo 17/ 18 / 19

AI & Data Science

Environments, AWS, GCP

Data Analytics, ML, AI & Data Science

COGNITIVE BUSINESS

We transform overwhelming data silos into your most powerful strategic asset. By integrating advanced machine learning and artificial intelligence, we help you transition from merely collecting raw data to generating actionable, predictive intelligence.

Raw Data to Actionable Intelligence

We cleanse, structure, and analyze complex datasets to uncover hidden operational insights and drive informed decision-making.

Predictive Analytics

We utilize historical data to forecast market trends, optimize supply chains, and anticipate shifts in customer behavior.

Custom Machine Learning Models

We engineer bespoke ML algorithms designed specifically to solve your unique industry challenges and operational nuances.

Generative AI Integration

We embed secure GenAI tools into daily workflows to automate content generation, enhance customer service, and accelerate internal research.

Innovation, Research & Development

At Metamorphosis Ltd., innovation is not a buzzword — it is our operational baseline. We bridge the gap between visionary concepts and commercial reality, ensuring our partners are equipped not just for today's market, but for the next decade of digital evolution.

From Idea to Impact

Our R&D lab operates on a rapid-prototyping model, turning conceptual breakthroughs into deployable enterprise solutions that drive tangible business value.

Future-Proofing Ecosystems

We actively explore integration frameworks for tomorrow's disruptors — including enterprise applications of Humanoid Robotics and Space-tech data utilization — before they become market requirements.

Continuous Evolution

Continuous Evolution: We dedicate substantial resources to monitor, stress-test, and master emerging technologies long before they become mainstream, keeping our clients ahead of the curve.

Strategic Consultancy

Technology should serve your strategy, not define it. Our "Consultant-First" approach means we deeply diagnose your operational pain points and market position before a single line of code is written or system deployed.

1

Diagnostic Precision

We conduct comprehensive audits to identify friction points, workflow bottlenecks, and untapped revenue streams within your organization.

2

Digital Transformation Roadmaps

We build step-by-step, phased blueprints that align technology adoption strictly with your core business objectives.

3

Market Entry Strategy

We provide data-backed frameworks designed to help you scale operations, enter new demographics, and capture market share efficiently.

4

ROI-Driven Advisory

Every technological recommendation we make is tethered to measurable business outcomes and long-term financial performance.

Industry-Specific Solutions

Social Enterprises & NGOs

Technology should serve your strategy — not define it. Our "Consultant-First" approach means we deeply diagnose your operational pain points and market position before a single line of code is written or a system deployed.

Grameen Danone

A globally recognized corporate social business. We implemented Odoo ERP encompassing Purchase, Inventory, Manufacturing, Quality, Sales, Payroll, and Accounting. This ensures rigorous quality control for their fortified "Shokti+" yogurt, tracks fresh milk sourcing from rural micro-farmers, and maintains visibility across a temperature-sensitive supply chain.

Friendship NGO

Serving marginalized communities with nearly 5,000 employees. We executed a two-phase implementation. Phase 1 centralized Finance, Purchase, and Payroll. Phase 2 delivered customized HR functions, performance management, and qualitative indicator tracking, ensuring total transparency for international donors.

Industry-Specific Solutions

Social Enterprises & NGOs

Swapnanagar Bidyaniketon

The first school in a rural Chittagong locality. We digitized their accounting and donation management to ensure absolute financial transparency for their benefactors.

Tetra Private Limited

A social enterprise providing "Water For Life" via solar-powered desalination. We deployed Odoo Enterprise to streamline remote field service operations, multi-location inventory, and project-based accounting.

RMG & Textile Vertical

Driving Global Supply Chain Excellence

Premier 1888 Ltd.

One of the largest textile manufacturers exporting to Walmart and IKEA (1.45 Million Kg/month capacity). We deployed Odoo Enterprise to manage their vast organic and sustainable product lines, ensuring ISO 17025 standard compliance.

Fatullah Group

A leading knit and woven textile manufacturer. We implemented robust Quotation and CRM modules to streamline their B2B export and retail operations.

Alauddin Textile Mills

Legendary textile brands utilizing Odoo for comprehensive purchase, stock, sales, fixed asset, and accounting management.

RMG & Textile Vertical

Driving Global Supply Chain Excellence

TexFastener

A global leader in zippers and metal buttons. We provided deep consultancy and implementation to streamline their highly complex manufacturing supply chain.

Skydragos Industries Ltd.

A Denim manufacturing plant utilizing Odoo for end-to-end Purchase, Inventory, Sales, and Accounting workflows.

M&U Cycles Ltd.

A 100% export-oriented bicycle manufacturer. We optimized their Accounting, Purchase, Manufacturing, and Sales operations for European and US export compliance.

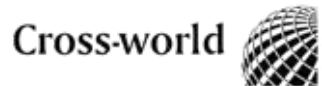

Manufacturing & Heavy Engineering

We replace disconnected PLM systems and blind production planning with real-time Manufacturing Execution Systems (MES).

Jamuna Spacotech Joint Venture Ltd.

A pioneer in Bangladesh's LPG sector. We centralized their procurement, manufacturing, and nationwide distribution, resolving delays caused by previously disconnected software.

Cross-World Limited

Providers of diesel generators and power solutions. We deployed a full-scale manufacturing ERP, seamlessly connecting Purchase, Inventory, Quality, Maintenance, Repairs, and Projects.

Hasan Rubber Industries (Pvt.) Ltd.

Tyre manufacturers. We implemented advanced Supply Chain, Warehouse Management, Manufacturing, and Financial modules to manage their extensive production of commercial and electric vehicle tyres.

Manufacturing & Heavy Engineering

We replace disconnected PLM systems and blind production planning with real-time Manufacturing Execution Systems (MES).

RD Industries Limited

Pyrolysis recycling of end-of-life tyres. We digitized their resource recovery operations (green oil, carbon black) spanning manufacturing, sales, and HR.

SMET SERVICES

Leading CNG/LPG equipment suppliers. We integrated their supply chain, local manufacturing of LPG Autogas tanks, and financial tracking across 50+ stations.

Global Electrical Industries

Manufacturers of fans and mild steel pipes. We implemented Inventory, Sales, HR, and Accounting modules to automate costing and sales tracking.

BSEP Bangladesh

Fire safety and electro-mechanical product manufacturers. We supplied complete ERP consultancy for sales, inventory, and enterprise functions.

Manufacturing & Heavy Engineering

We replace disconnected PLM systems and blind production planning with real-time Manufacturing Execution Systems (MES).

ColorJet

Digital printing solutions provider. We optimized their Purchase, Support Service, Inventory, Helpdesk, and Sales operations.

Donor Plastic Industries

Manufacturers of pharmaceutical plastic containers. We streamlined their injection and blow molding technologies via Purchase, Sales, Inventory, and Manufacturing modules.

Aristo Food Exporter Limited

A massive Auto Rice Mill in Jashore. We managed their complex countrywide purchase and freight deliveries.

Retail, E-Commerce, & Distribution

We solve phantom inventory issues, unify multi-warehouse chaos, and integrate seamless localized logistics.

IDIYA

A premier parallel importer of IKEA products. We implemented a completely automated, paperless eCommerce solution covering the full supply chain, POS, delivery management, and smart routing.

Anan Enterprise

A rapidly growing super shop. We digitized their retail operations with POS, Inventory Management, and Finance, establishing precise stock control and rapid checkout experiences.

Dahmashi Trading Company Ltd

Importers of premium German BRAVAT sanitary ware. We optimized their multi-store coordination, inventory, and procurement processes.

Retail, E-Commerce, & Distribution

We solve phantom inventory issues, unify multi-warehouse chaos, and integrate seamless localized logistics.

Smart Distribution (Pvt.) Ltd.

FMCG importers of European brands. We consolidated their Purchase, Sales, and Accounting into a unified platform.

Porshi Super Store

A dynamic retail chain. We streamlined their supply chain, warehousing, and high-volume POS transactions.

Easy Dhaka Solutions

High-end cosmetics importer (UK/China). We provided an integrated eCommerce and Inventory solution to handle fast-moving beauty products.

Retail, E-Commerce, & Distribution

We solve phantom inventory issues, unify multi-warehouse chaos, and integrate seamless localized logistics.

Organik Chicken

An antibiotic-free meat startup. We managed their entire lifecycle from Manufacturing and Inventory to Website, E-Commerce, and Customer Delivery Management.

GreenTiger

Electric bike importers. We connected their Sales, eCommerce, Purchase, and Distribution networks.

Baatighar

The premium book store and publisher from Bangladesh with exceptional service and hospitality. It has widest ranges of collection of books, magazines and reading materials. It has also published number of authentic books from prominent writers.

Pathak Shamabesh

Pathak Shamabesh, founded in 1987, is a leading Bangladeshi publisher focused on quality literature. It publishes books in Bengali and English and runs popular bookstores, connecting readers and authors.

Retail, E-Commerce, & Distribution

We solve phantom inventory issues, unify multi-warehouse chaos, and integrate seamless localized logistics.

UPL

The University Press Limited (UPL), founded in 1974, is a leading publisher in Bangladesh. It publishes academic and educational books in English and Bangla, collaborates with Oxford University Press, and distributes foreign publishers' books locally.

Adarsha

Adarsha Publication is a leading Bangladeshi publisher known for quality books and diverse genres. It supports writers and promotes a strong reading culture.

Gronthik Prokashon

Gronthik Prokashon, founded in 2017, is a growing Bangladeshi publisher known for thought-provoking and quality non-fiction works. It focuses on topics like the Liberation War, politics, and research, along with translations.

Habib Prokashon

Habib Prokashon, established in 2018, is a Bangladeshi publishing house focused on Islamic, spiritual, and thought-provoking literature. It aims to promote knowledge and values through quality publications and continues to grow as a platform for meaningful reading.

Retail, E-Commerce, & Distribution

We solve phantom inventory issues, unify multi-warehouse chaos, and integrate seamless localized logistics.

Skyblue International (Shanghai) Ltd

China-based furniture traders. We engineered their cross-border trading operations, providing real-time inventory visibility and automated sales workflows.

Opsora Store

Women's e-commerce platform. We integrated their Website, Sales, Inventory, and WhatsApp modules for enhanced customer service.

Invite Foods Trading & JamiePro bv (Netherlands)

We provided robust backend management for these specialized global trading entities.

Healthcare, Pharmaceuticals & Agriculture

We implement strict batch tracking, expiry management (FEFO), and regulatory compliance architectures.

Alchem Enterprise

Suppliers of high-value APIs. We are integrating their procurement, warehouse management, and strict quality control workflows to manage complex international vendor relationships and GMP standard compliance.

Ajit Saha Bangladesh Limited

Agricultural seed and pest control suppliers. We achieved operational transparency over perishable seed stocks to meet fluctuating seasonal demands via Purchase, Inventory, and Sales modules.

Curepoint Pharmacy & Departmental Store

We deployed Odoo POS and Inventory to ensure real-time stock updates for pharmaceutical products, improving community healthcare delivery.

Healthcare, Pharmaceuticals & Agriculture

We implement strict batch tracking, expiry management (FEFO), and regulatory compliance architectures.

Pastuer Pharmatech Solutions

Pharmaceutical equipment suppliers. We delivered one-stop logistics support spanning Purchases, Sales, and targeted business mapping.

Bangladesh Armed Services Board (BASB)

We deployed a highly reliable POS and Inventory system across 30+ physical stores to manage free medicine delivery for retired service personnel.

Corporate Services, Tech & Infrastructure

We streamline complex project billing, fixed asset management, and CRM.

Ekattor Media Limited

The pioneering HD satellite TV channel. We implemented highly specialized modules for Revenue Management, Analytics, and Daily TV airing schedule tracking.

Celestial Tech Limited

Marine technical solutions for the Bangladesh Navy. We delivered an all-in-one ERP covering Sales, Inventory, Projects, and HR to manage high-performance vessel integration.

HAJ Corporation

Security and AI surveillance integrators. We transformed their complex tender participation and project execution workflows with Custom Tender Modules, CRM, and Project integration.

Corporate Services, Tech & Infrastructure

We streamline complex project billing, fixed asset management, and CRM.

Surge Engineering

Electrical safety audit providers (USAID projects). We managed their service, trading, and project-related financials end-to-end.

Studio Varmin

Architecture consulting firm. We deployed Odoo to manage their high-end design and construction project lifecycles.

Bhaiya Housing Limited

Top-tier real estate developers. We implemented a complete Odoo 18 HRMS solution, including attendance integration, fleet management, and mobile self-service apps.

Corporate Services, Tech & Infrastructure

We streamline complex project billing, fixed asset management, and CRM.

HammerHead Bangladesh Engineering Services Limited

Representatives for global engineering manufacturers (Germany/USA). We optimized their CRM, Projects, and Maintenance Activities.

Agile Minds Solutions Limited

A massive conglomerate spanning food distribution (UNDP), robotics, and renewable energy. We are streamlining processes across their diverse concerns (including Direct Fresh Limited) with advanced POS, Inventory, and Financial tracking.

MetaKave

Tech startup. We provided backend ERP infrastructure to support their Web 2.0 innovations.

METAMORPHOSIS LTD.

Mobile & E-commerce Ecosystem

Extending ERP Power to Consumers and Field Agents

Native. Real-Time. Enterprise-Grade.

Metamorphosis Ltd. extends ERP power directly into the hands of consumers and field agents through sophisticated Native Mobile App Development — across Android, iOS, and Flutter. Our custom applications interact in real-time with enterprise backends, eliminating data silos and accelerating decision-making in the field.

Case Study: Pickaboo Mobile App

We architected the API layer for Bangladesh's largest one-stop electronics shopping destination — ensuring seamless, real-time synchronization between their vast inventory management system and the mobile frontend serving millions of users.

Android

Native Android development optimized for performance at enterprise scale.

iOS

Premium iOS experiences built to Apple's rigorous

Flutter

Premium iOS experiences built to Apple's rigorous quality standards.

ERP Integration

Real-time synchronization with Odoo and enterprise backend systems.

SECURITY

Fortified Trust: Security Standards

Your data's integrity is our highest priority.

Executive Summary

We enforce stringent, NGO-grade security protocols across all deployments — ensuring total compliance and peace of mind as you scale your operations globally. Security is not an afterthought; it is the foundation of every architecture we build.

NGO-Grade Compliance

We adhere to the strict data protection, auditing, and transparency standards required by top-tier organizations like the Fred Hyde Foundation — a benchmark that exceeds most commercial requirements.

End-to-End Encryption

Robust, modern encryption protocols safeguard your corporate data both at rest and in transit, ensuring zero exposure across every layer of your infrastructure.

Enterprise-Grade Compliance

Proactive threat detection and real-time system surveillance to identify and neutralize vulnerabilities before they impact operations.

SOCIAL IMPACT & GLOBAL REACH

A Catalyst for International Trade and Social Development

Beyond our extensive domestic footprint in Bangladesh, our digital architectures power operations across four continents.

South Sudan

Implemented Odoo for IPTEC Ltd., a leading ISP providing satellite internet to UN agencies and international NGOs in one of the world's most challenging operating environments.

Kingdom of Saudi Arabia

Deployed comprehensive CRM and Sales architectures for RKE, a prominent regional IT company operating across the Gulf Cooperation Council market.

New Zealand & The Netherlands

Engineered cross-border supply chain solutions for IDIYA and JamiePro bv, managing complex international logistics, parallel importing, and European retail distribution.

Diplomatic Trade Initiatives

Active participation in high-level trade delegations — including EXOPRO to Brunei — representing Bangladesh's technological vanguard and forging bilateral digital trade pathways.

We build technology you can trust. We are Metamorphosis Ltd., and we are ready to architect your future.

Frequently Asked Questions

Answers to the questions our clients ask most — before, during, and after engagement.

1

What is the typical implementation timeline?

Timelines vary by project scope, but our Lean Implementation methodology typically accelerates core ERP deployment to an efficient 8– 12 week window — minimizing disruption and time-to-value.

2

Do we own our data post-launch?

Absolutely. You retain 100% ownership and absolute sovereignty over your business data at all times — no exceptions, no lock-in. Your data is yours.

3

Are there limits to software customization?

While Odoo is highly flexible, we strategically advise against over-customizing core modules. This ensures seamless future upgrades and prevents the accumulation of costly technical debt.

4

What post-launch support do you offer?

We provide continuous system monitoring, performance tuning, and dedicated SLA-backed support — ensuring your platform evolves alongside your business and delivers long-term success.

Thank You
